

## Visi-slide bottle dividers

### Maximize Sales, lower breakage for all bottle sales

#### October 2009

The Visi-Slide is designed for Bottles or cans and will serve as both an organizer and gravity merchandiser. You can have pitched or lay flat. You can install on as little as a 15 1/8" wide x 14 1/2" deep shelf. Each row can accommodate approx. 9 bottles deep.

The stock units are 27" deep & have break off sections starting at 14 1/2". This allows easy fit into narrow depth reach in cabinets. Other snap off depths are 17 3/4" . 21" and 24" measured from the front.

If you require a sample.. please call we would be happy to send out.

Sold per Carton: each carton contains 54 rows. Including:

- Six sets of 5 row dividers at 15 1/8" wide x 27" deep , 45 bottles storage
- Twelve set of 2 row dividers 6 1/8" wide x 27" deep, 18 bottles storage
- Twelve sets of single row dividers , 3 1/8" wide x 27" deep, 9 bottles storage

Mix and match the dividers to fill your cooler. Each set will lock into the next. No hardware is needed, they sit right on existing wire shelving. The front is notched to fit the wire rail of shelving.

Budget for 7-8 rows in a 23" door

Budget 9 rows for a 30" door,

\* depending on lighting and shelving restrictions.
